The Vision for Space Exploration (VSE) was a plan for space exploration announced on January 14, 2004 by President George W. Bush. It was conceived as a response to the Space Shuttle Columbia disaster, the state of human spaceflight at NASA, and as a way to regain public enthusiasm for space exploration. It was replaced by the space policy of the Barack Obama administration in June 2010.

Organic architecture is a philosophy of architecture which promotes harmony between human habitation and the natural world. This is achieved through design approaches that aim to be sympathetic and well-integrated with a site, so buildings, furnishings, and surroundings become part of a unified, interrelated composition.

Newburyport: A Showplace of Early American Domestic Architecture. Through the happy combination of circumstance and vision, Newburyport has come to be known for its uncommonly rich stock of early American domestic architecture in First Period, Georgian, Federal, and Greek Revival styles. To a lesser degree, also found in Newburyport are fine examples of late 19th- and early 20th-century styles ...
