2010 AP Course Requirements Your guide for what is needed for this course and what is expected of you in this course. 2010 AP Biology Curriculum Schedule

Explore Biology | Handouts | AP Biology Teaching

This course is designed to be the equivalent of a college introductory biology course usually taken by biology majors during their first year.

AP Bio - MS. RAGO'S CLASS WEBSITE

Chemical biology is a scientific discipline spanning the fields of chemistry and biology. The discipline involves the application of chemical techniques, analysis, and often small molecules produced through synthetic chemistry, to the study and manipulation of biological systems.

Chemical biology - Wikipedia

Computational Genomics Research Group University of California, Berkeley. PI: Steven E. Brenner News . Alum Richard E. Green's work on shrinking people on the Island of Flores highlighted in the New York Times

The ribosome is a molecular factory that translates the genetic information in RNA into a string of amino acids that becomes a protein. Inside the ribosome, the genetic code of the RNA is read three letters at a time and compared with the corresponding code on a transfer molecule.

Translation (advanced detail) | HHMI BioInteractive

The genetic code links groups of nucleotides in an mRNA to amino acids in a protein. Start codons, stop codons, reading frame.

The genetic code (article) | Khan Academy

Use this simple colorimetric protein assay to measure total protein concentration. Easily adaptable from low to high concentration for rapid 96-well assays.
