A critical analysis by Dr Ignatius Gwanmesia into the application of theory into practice using a typical reality case example. Comments and views welcomed.

Social Work: A case study in applying theories to practice

History of Schlossbergâ€™s Transition Theory Schlossberg developed her theory by collaborating with others and documenting findings in books. â€“ She first published her research and the beginning ideas for her Transition

â€œMoving In, Moving Through, Moving Outâ€• Nancy K

Systems theory has long been concerned with the study of complex systems (in recent times, complexity theory and complex systems have also been used as names of the field). These systems are present in the research of a variety disciplines, including biology, economics, social studies and technology. Recently, complexity has become a natural domain of interest of real world socio-cognitive ...

Complexity - Wikipedia

Also called "development in context" or "human ecology" theory, ecological systems theory, originally formulated by Urie Bronfenbrenner specifies four types of nested environmental systems, with bi-directional influences within and between the systems. The four systems are microsystem, mesosystem, exosystem, and macrosystem.
