II. Overview of the Petroleum Industry. Basic Refinery Process: Description and History. Petroleum refining has evolved continuously in response to changing consumer demand for better and different products.

### **OSHA Technical Manual (OTM) | Section IV: Chapter 2**

Catalysts generally react with one or more reactants to form intermediates that subsequently give the final reaction product, in the process regenerating the catalyst. The following is a typical reaction scheme, where C represents the catalyst, X and Y are reactants, and Z is the product of the reaction of X and Y:

Handbook of Spent Hydroprocessing Catalysts, Second Edition, covers all aspects of spent hydroprocessing catalysts, both regenerable and non-regenerable. It contains detailed information on hazardous characteristics of spent and regenerated catalysts.

### **Handbook of Spent Hydroprocessing Catalysts - 2nd Edition**

Hydrodesulfurization (HDS) is a catalytic chemical process widely used to remove sulfur (S) from natural gas and from refined petroleum products, such as gasoline or petrol, jet fuel, kerosene, diesel fuel, and fuel oils. The purpose of removing the sulfur, and creating products such as ultra-low-sulfur diesel, is to reduce the sulfur dioxide (SO<sub>2</sub>) emissions that result from using those fuels ...

Polymeric gas-separation membranes were commercialized 30 years ago. The interest on these systems is increasing because of the simplicity of concept and low-energy consumption. In the refinery, gas separation is needed in many processes such as natural gas treatment, carbon dioxide capture, hydrogen purification, and hydrocarbons separations.

PTQ Catalysis, published annually in March, is PTQ's review of hydrocarbon industry catalysts and their

use in process technology. PTQ's Revamps supplement is published annually in September and focusses on revamps, shutdowns and maintenance.. PTQ's Gas supplement is published annually in April and focusses on all aspects of the processing of Hydrocarbon gases.

For over 25 years, the Digest has been the most inclusive, global, and timely news publication of its kind. This weekly newsletter contains futures and spot prices for crude and refined products, refining margins, and comprehensive summaries of refining business and technology news culled from hundreds of newswire articles, news blogs, petroleum magazines, trade journals, business newspapers ...
