An electric motor is an electrical machine that converts electrical energy into mechanical energy. An electric generator operates in the reverse direction, converting mechanical energy into electrical energy. Most electric motors operate through the interaction between the motor's magnetic field and winding currents to generate force. In certain applications, such as in regenerative braking ...

The Green Book is a training and induction manual issued by the Irish Republican Army to new volunteers. It was used by the post-Irish Civil War Irish Republican Army (IRA) and Cumann na mBan, ("League of Women"), along with later incarnations such as the Provisional IRA (PIRA). It includes a statement of military objectives, tactics and conditions for military victory against the British ...

Introduction. This manual is the basic textbook for anyone writing an ASTM standard. A study of Parts A, B, C, or E will show the proper form for the principal types of standards including a detailed explanation of how to write each section, from the title to the appendixes. Within Parts A, B, C, and E, the first section lists the preferred sequence of headings and indicates whether these ...
