International development or global development is a wide concept concerning level of development on an

international scale. It is the basis for international classifications such as developed country, developing country and least developed country. There are however many schools of thought and conventions regarding, which are the exact features constituting development of a country.

### **International development - Wikipedia**

Medical classification, or medical coding, is the process of transforming descriptions of medical diagnoses and procedures into universal medical code numbers. The diagnoses and procedures are usually taken from a variety of sources within the health care record, such as the transcription of the physician's notes, laboratory results, radiologic results, and other sources.
