Metrology is the science of measurement. It establishes a common understanding of units, crucial in linking human activities. Modern metrology has its roots in the French Revolution's political motivation to standardise units in France, when a length standard taken from a natural source was proposed. This led to the creation of the decimal-based metric system in 1795, establishing a set of ...

D.J.Dunn 1 INSTRUMENTATION AND CONTROL TUTORIAL 2 "SENSORS AND PRIMARY TRANSDUCERS This tutorial provides an overview of instrument sensors used in process and automatic

### **Fundamentals of Instrumentation and Control**

Instrumentation is a collective term for measuring instruments used for indicating, measuring and recording physical quantities, and has its origins in the art and science of scientific instrument-making.. The term instrumentation may refer to a device or group of devices used for direct reading thermometers or, when using many sensors, may become part of a complex industrial control system in ...
