SANS OUCH! is the world's leading, free security awareness newsletter designed for everyone. Published every month in multiple languages, each edition is carefully researched and developed by the SANS Security Awareness team, instructors and community members.

OUCH! Newsletter | SANS Security Awareness

Security is freedom from, or resilience against, potential harm (or other unwanted coercive change) from external forces. Beneficiaries (technically referents) of security may be persons and social groups, objects and institutions, ecosystems, and any other entity or phenomenon vulnerable to unwanted change by its environment.

Security - Wikipedia

This is a summary of key elements of the Security Rule including who is covered, what information is protected, and what safeguards must be in place to ensure appropriate protection of electronic protected health information.

Summary of the HIPAA Security Rule | HHS.gov

In the 21st century, we share and store our most sensitive personal information on phones, computers and even in "the cloud." Today more than ever, a strong privacy program, which includes data security, is

essential to the safety and welfare of the people of California and to our economy.

Oklahoma Employment Security Commission - Home

Information security, sometimes shortened to InfoSec, is the practice of preventing unauthorized access, use, disclosure, disruption, modification, inspection, recording or destruction of information. It is a general term that can be used regardless of the form the data may take (e.g., electronic, physical). Information security's primary focus is the balanced protection of the confidentiality ...
